

April 28, 2022

The Honorable Deb Haaland
Secretary, Department of the Interior
1849 C Street, N.W.
Washington, DC 20240

EARTHKEEPERS360

Dear Secretary Haaland:

As spiritual leaders from diverse traditions across the country, we are united in our support of increased protections for the Greater Chaco Landscape. We thank you for the proposal to withdraw future oil and gas drilling from the 10-mile area surrounding Chaco Culture National Historical Park.

As a UNESCO World Heritage site, Chaco Canyon tells an ancient and powerful story of the rich history, culture, spirituality and resiliency of Indigenous communities throughout the American Southwest. Since time immemorial, these communities have had a deep and sacred connection to the land, water, and wildlife of this important area. It is our moral responsibility as a nation, and our sacred task as spiritual leaders to be responsible stewards of creation and work to protect places of such remarkable cultural, spiritual, historical and ecological significance.

Centuries ago, Chaco Canyon was a ceremonial, agricultural and thriving economic center where Native people built magnificent great houses, astronomical observation sites, and ceremonial kivas. These areas continue to be places of prayer, healing and pilgrimage for various Pueblo and Tribal communities today. Over the years, excessive oil and gas drilling around Chaco Canyon has damaged air and water quality and caused immense harm to the health of children, families and local communities. The proposed withdrawal will ensure that we safeguard thousands of archeological and sacred sites and protect clean air and water for the surrounding communities for generations to come.

The Chaco Culture National Historical Park and the surrounding area also provide critical wildlife habitat to a diverse array of species ranging from elk and mule deer to large predators like cougar, bobcats and badgers as well as a wide variety of birds and reptiles. However, development of oil and gas wells, roads, pipelines, and other infrastructure have severely impacted the area's wildlife. The proposed withdrawal will ensure the protection of over 350,000 acres of key wildlife habitat as well as protect the area's unique biodiversity.

The lands in the Greater Chaco region are spiritually, historically and ecologically significant to New Mexico's Indigenous communities and deserve greater protection. Please approve the proposed administrative withdrawal on federal lands surrounding Chaco Culture National Historical Park.

With Gratitude,

Reverend Andrew Black
